Item 4 Advisory Business

General Description of Advisor

flexPATH Strategies, LLC is federally registered as an investment adviser with the Securities and Exchange Commission (referred to in this brochure as "Advisor" or "flexPATH Strategies") under the Investment Advisers Act of 1940, as amended ("Advisers Act"). Advisor is organized as a Delaware limited liability company.

General Description of Services

flexPATH Strategies primarily provides these investment management services as a subadvisor to certain pooled investment vehicles. Such pooled investment vehicles are typically organized as collective investment trusts (each, a "Trust") by an unaffiliated third-party trustee ("Trustee"). The Trustee has the ability to establish different funds with differing investment objectives (each, a "Fund") and to appoint an investment adviser with respect to the Funds. The Trustee hires and appoints Advisor to assist in implementing glidepath models for certain Funds, as provided by other unaffiliated investment adviser(s), and to oversee and advise on the Funds in accordance with the established investment objectives.

Sponsors of certain qualified retirement plans (each, a "Plan") invest assets of the Plan into the Funds. The Plan is a qualified employee benefit plan intended to comply with all applicable federal laws and regulations, including the Internal Revenue Code of 1986, as amended, and the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Each pooled investment vehicle is managed in accordance with its investment objectives, guidelines and restrictions and is not tailored to the individualized needs of any particular Plan, Fund shareholder or Fund investor, and an investment in such a vehicle does not, in and of itself, create an advisory relationship between the shareholder or investor and the Advisor.

The Advisor may employ many different calculations, processes, and screening techniques to arrive at specific manager allocations for the Funds within the array of managers and investments being analyzed and considered.

Fiduciary Role under ERISA

In providing investment management services to the Trustee and Funds, the Advisor acknowledges that it is a fiduciary and investment manager under section 3(21) of ERISA and a Qualified Professional Asset Manager under ERISA. flexPATH Strategies provides 3(21) and 3(38) investment management services to plans for a fee.

Investment Advice Assets

Advisor advises on a total of \$65,973,486,697 on a discretionary basis as of June 14, 2024.

Item 5 Fees and Compensation

Advisor's actual advisory fees, minimum fees and minimum account sizes may be negotiated and may vary from the schedules below due to a variety of factors, including the particular circumstances of a client, specific investment strategies mandated by a client, account size, and/or as otherwise may be agreed with specific clients. As a result, Advisor may offer certain clients lower fees than other clients. The Advisor's fees for services to the Funds generally are between 5 and 10 basis points. There is a "M" share class for larger clients, the fee may be as low as 3 basis points for clients that qualify for that share class. However, fees are determined on a per client basis and fees in excess of that range may exist based on the client's service needs.

The specific fees that Advisor charges a separate account client will be set forth in the client's written investment management agreement with Advisor. Advisor generally bills its advisory fees on a quarterly basis in advance unless otherwise agreed to with a client. Clients also may be billed directly for fees or authorize Advisor to directly debit fees from client accounts. Accounts initiated or terminated during a calendar quarter will be charged a prorated fee. Upon termination of any account, any earned, unpaid fees will be due and payable. Any fees paid in advance that are unearned shall be returned to the client prorated to the date of termination.

Other Fees

Advisor may invest assets with other managers and advisers, and in other collective investment funds, including mutual funds, ETFs, and other managed products or partnerships in clients' portfolios. Clients may be charged for the services by the managers and providers of these products in addition to the service fees paid to the Advisor. The fees and expenses charged are separate and distinct from the management fee charged by the Advisor. These fees and expenses are described in each fund's prospectus or offering memorandum. These fees will generally include a management fee, other fund expenses and a possible distribution fee. Accordingly, the client should review both the fees charged by the funds and the applicable fee charged by the Advisor to fully understand the total amount of fees to be paid by the client and to thereby evaluate the advisory services being provided.

Item 6 Performance-Based Fees and Side-By-Side Management

Fees are not based on a share of the capital gains or capital appreciation of managed securities.

Item 7 Types of Clients

Advisor provides investment advisory services primarily to institutional clients such as pooled investment vehicles, and pension and profit-sharing plans.

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

Method of Analysis and Investment Strategies

The Advisor primarily uses quantitative and qualitative analysis in evaluating other managers and advisors for its services. The primary investment strategies utilized are passive (index), actively managed and asset allocation through other managers and collective investment funds. Managers and collective Funds utilized are diversified to minimize the risk associated with the capital markets. The Advisor's strategies do not involve frequent trading.

Risk of Loss

Any investment or investment strategy involves some risk of loss a client should be prepared to bear. Examples of such risks are:

Interest-rate Risk: Fluctuations in interest rates may cause investment values to fluctuate. For example, market values of bonds typically decline when interest rates rise, because the rising rate makes the existing bond yields less attractive.

Market Risk: External factors independent of a security's particular underlying circumstances may impact its value. The value of a security, bond or mutual fund may drop in reaction to tangible and intangible events and conditions, such as a political or social event or an economic condition.

Inflation Risk: Inflation means a dollar today may buy more than a dollar next year. When inflation is present, purchasing power typically decreases at the rate of inflation.

Currency Risk: Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. Also known as exchange rate risk, these risks may be present in international mutual funds for example.

Reinvestment Risk: The risk that future proceeds from investments may be reinvested at a potentially lower rate of return is reinvestment risk. This risk primarily relates to fixed income securities.

Business Risk: Risks associated with a particular industry, or a specific company may impact the value of investments.

Liquidity Risk: Liquidity means the ability to readily convert an investment into cash. Assets with many purchasers are generally more liquid. For example, Treasury Bills are highly liquid, while real estate properties are less so.

Financial Risk: A company with excessive borrowing or that takes significant business risks to generate profit is typically at a greater risk of financial difficulty or failure.

Accuracy of Public Information: The Advisor selects other managers and investments, in part, on the basis of information and data filed by issuers with various government regulators or made directly available to the Advisor by the issuers or through sources other than the issuers. Although the Advisor evaluates all such information and data and sometimes seeks independent corroboration when it's considered appropriate and reasonably available, the Advisor is not in a position to confirm the completeness, genuineness or accuracy of such information and data, and in some cases, complete and accurate information is not available.

Investments in Non-US. Investments: From time to time, the Advisor may provide investment advice in non-U.S. securities and other assets (through other managers, mutual funds and otherwise), which will give rise to risks relating to political, social and economic developments abroad, as overall as risks resulting from the differences between the regulations to which U.S. and foreign issuers and markets are subject. Such risks may include: political or social instability, the seizure by foreign governments of company assets, acts of war or terrorism, withholding taxes on dividends and interest, high or confiscatory tax levels, and limitations on the use or transfer of portfolio assets. Enforcing legal rights in some foreign countries is difficult, costly and slow, and there are sometimes special problems enforcing claims against foreign governments.

Foreign securities and other assets often trade in currencies other than the U.S. dollar, and the Advisor may provide advice on foreign currencies through forward exchange contracts. Changes in currency exchange rates will affect the client's asset value, the value of dividends and interest earned, and gains and losses realized on the sale of investments. An increase in the strength of the U.S. dollar relative to these other currencies may cause the value of the client's investments to decline. Some foreign currencies are particularly volatile. Foreign governments may intervene in the currency markets, causing a decline in value or liquidity of the client's foreign currency holdings. If the client enters into forward foreign currency exchange contracts for hedging purposes, it may lose the benefits of advantageous changes in exchange rates. On the other hand, if the client enters forward contracts for the purpose of increasing return, it may sustain losses.

Non-U.S. securities, commodities and other markets may be less liquid, more volatile and less closely supervised by the government than in the United States. Foreign countries often lack uniform accounting, auditing and financial reporting standards, and there may be less public information about the operations of issuers in such markets.

Other Investment Manager and Fund of Funds Risk: The investment performance of a portfolio that is managed by another investment adviser, or included within a fund-of-funds is affected by the investment performance of the underlying securities and funds which the manager chooses or in which the portfolio invests. The ability to achieve the investment objective depends on the ability of the chosen manager or underlying funds, as applicable, to meet their investment objectives and on Advisor's decisions regarding the allocation of assets among the underlying managers and funds. The chosen manager or portfolio may allocate assets to an underlying fund or asset class that underperforms other funds or asset classes. There can be no assurance that the investment objective of the manager, portfolio or any underlying fund will be achieved. When a manager or the portfolio invests in underlying funds, investors are exposed to a proportionate share of the expenses of those underlying investments in addition to the expenses of manager or the portfolio. Through its investments in underlying funds, the portfolio is subject to the risks of the underlying funds' investments.

For a client investing in a collective investment fund, like the Funds, please also carefully review the fund's prospectus, offering document or Trust agreement, as applicable, and any corresponding investment management agreement for additional information on investment strategies and risks.

Item 9 Disciplinary Information

Neither Advisor nor its employees have been the subject of any disciplinary actions.

Item 10 Other Financial Industry Activities and Affiliations

Affiliated Companies

Great Gray Trust Company, LLC ("Great Gray") and Retirement Plan Advisory Group, LLC ("RPAG") are wholly owned by the same holding company entity ("HoldCo").

flexPATH Strategies has a different ownership group that includes HoldCo as a minority investor. Specifically, HoldCo has an indirect, non-controlling, minority equity investment in flexPATH Strategies. HoldCo does not have the power, directly or indirectly, to direct the management or policies of flexPATH Strategies.

Great Gray acts as trustee for collective investment trusts ("CITs") and engages flexPATH Strategies as a sub-advisor to some of its CITs. Great Gray compensates flexPATH Strategies for the services it provides to the CITs out of the trustee fees that Great Gray receives from the CITs.

RPAG provides technology, solutions and services to its customers, primarily retirement plan advisors and associated institutions. RPAG's solutions include information, such as formulaic scorecards, that its customers can use to conduct due diligence on CITs, including those for which Great Gray is trustee and those for which flexPATH Strategies is sub-advisor. Neither Great Gray nor flexPATH Strategies compensates RPAG for making the information about the CITs that they advise available to RPAG's customers or for the presentation of that information. RPAG does not offer investment advice of any kind and is not a registered investment adviser.

Investment managers that purchase solutions or services from RPAG may be selected by flexPATH as subadvisors for clients they serve, however, all investment managers selected are evaluated pursuant to the same criteria and due diligence process, and their selection is not contingent upon purchases from RPAG.

For pension plans or profit-sharing plans that are flexPATH clients and may require technology solutions that RPAG offers, flexPATH will recommend RPAG. This presents a conflict of interest in that certain flexPATH employees provide services to RPAG under a service agreement between the two companies and due to HoldCo's ownership of RPAG and minority investment in flexPATH.

For flexPATH's pension and profit-sharing clients, it is also important to note that flexPATH can recommend CITs for which flexPATH serves as the 3(21) advisor which Great Gray is the Trustee and that HoldCo owns. Great Gray has a minority investment in flexPATH, as described above. You are under no obligation to use the products or services of any company we may recommend.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Code of Ethics

The Advisor has adopted a Code of Ethics which establishes standards of conduct for its supervised persons. The Code of Ethics includes general requirements that such supervised persons comply with their fiduciary obligations to clients and applicable securities laws, and specific requirements relating to, among other things, personal trading, insider trading, conflicts of interest and confidentiality of client information. It requires supervised persons to report their personal securities transactions and holdings quarterly to the Advisor's Compliance Officer and requires the Compliance Officer to review those reports. It also requires supervised persons to report any violations of the Code of Ethics promptly to the Advisor's Compliance Officer. Each supervised person of the Advisor receives a copy of the Code of Ethics and any amendments to it and must acknowledge in writing having received the materials. Annually, each supervised person must certify that he or she complied with the Code of Ethics during that year. Clients and prospective clients may obtain a copy of the Adviser's Code of Ethics by contacting the Compliance Officer of the Advisor.

Participation or Interest in Client Transactions

Under the Adviser's Code of Ethics, the Advisor and its managers, members, officers and employees may invest personally in securities of the same classes as are purchased for clients and may own securities of the issuers whose securities are subsequently purchased for clients. If an issue is purchased or sold for clients and any of the Advisor, managers, members, officers and employees on the same day purchase or sell the same security, either the clients and the Advisor, managers, members, officers or employees shall receive or pay the same price or the clients shall receive a more favorable price. The Advisor and its managers, members, officers and employees may also buy or sell specific securities for their own accounts based on personal investment considerations, which the Advisor does not deem appropriate to buy or sell for clients.

Personal Trading

The Chief Compliance Officer reviews all employee trades each quarter. The personal trading reviews ensure that the personal trading of employees does not affect the markets, and that clients of the firm receive preferential treatment.

Item 12 Brokerage Practices

Since Advisor mainly provides investment advice by allocating assets to other third-party investment advisers and managers within funds on a recordkeeping platform, it does not select or recommend broker-dealers in connection with these services.

Item 13 Review of Accounts

Advisor reviews accounts, as applicable, on a periodic basis. Reviewers may include members of the portfolio management team. Reviews of an account occur at differing frequencies and for differing purposes depending on the type of client and account. All reviews use similar factors and comprehensive criteria such as, but not limited to overall market changes and changes in the investment objectives.

Investors in pooled investment vehicles receive reports on investment results and may receive additional reports pursuant to the specific vehicle. Reports for any individual clients will be individualized, thereby the nature and frequency are to be determined by client need and the services offered by Advisor.

Item 14 Client Referrals and Other Compensation

BlackRock provides flexPATH with a marketing fee to be used for joint marketing purposes. This presents a conflict of interest as it provides flexPATH an incentive to utilize products sponsored or distributed by BlackRock in the selection of management for client accounts. However, BlackRock products and services are subject to the same rigorous selection process, due diligence and continuous monitoring as all products and services used by Advisor.

FlexPATH does not compensate for referrals.

Item 15 Custody

Advisor does not have custody of client assets. All assets in client accounts shall be held for safekeeping with a designated custodian as selected by the client. Advisor shall not act as custodian for any assets in the client's account and shall not take possession of cash and/or securities of the Client's account. Advisor shall not be liable to Client for any act, conduct or omission by custodian.

Item 16 Investment Discretion

Advisor may receive discretionary authority from a client pursuant to an investment management agreement, or other engagement document, at the outset of an advisory relationship to select the identity and amount of securities to be bought or sold, or to select other advisors to make such decisions. In all cases, however, such discretion is to be exercised in a manner consistent with the stated investment objectives for the particular client. When selecting securities and determining amounts, or other managers to perform such services, Advisor observes the investment policies, limitations, and restrictions of the clients for which it advises

Item 17 Voting Client Securities

Since Advisor mainly provides investment advice on allocating assets to other third-party investment advisers and managers, it does not vote proxies of securities. Further, Advisor typically will not agree to accept authority to vote proxies for a client. The client will be responsible for receiving and voting

proxies for any and all securities maintained in client portfolios, and Advisor is not responsible for forwarding proxies to the client. Depending on the circumstances and the terms of the client's agreement, however, Advisor may provide advice about a proxy from time to time.

Item 18 Financial Information

The Advisor does not have any financial impairment that will preclude the Advisor from meeting contractual commitments to clients. The Advisor meets all net capital requirements that it is subject to, and the Advisor has not been the subject of a bankruptcy petition.

The Advisor is not required to provide a balance sheet as it does not serve as a custodian for client funds or securities and does not require prepayment of fees of more than \$1,200 per client, and six months or more in advance.

flexPATH Strategies Privacy Policy

flexPATH Strategies and its employees are committed to protecting your privacy and to safeguarding client information.

Safeguarding Client Documents

flexPATH Strategies uses encryption technologies on all electronic mail communications, mobile devices and laptops, wireless access and on servers, when the circumstances allow and dictate. In addition, flexPATH Strategies maintains a cyber-liability policy. We collect non-public client data in checklists, forms, in written notations, and in documentation provided to us by our clients for evaluation, registration, licensing or related consulting services. We also create internal lists of such data.

During regular business hours access to client records is monitored so that only those with approval may access the files. During hours in which the company is not in operation, the client records will be locked. No individual who is not so authorized shall obtain or seek to obtain personal and financial client information.

No individual with authorization to access personal and financial client information shall share that information in any manner without the specific consent of a Firm principal. Failure to observe flexPATH Strategies procedures regarding client and consumer privacy will result in discipline and may lead to termination.

Sharing Nonpublic Personal and Financial Information

flexPATH Strategies is committed to the protection and privacy of its clients' and consumers' personal and financial information. flexPATH Strategies will not share such information with any affiliated or nonaffiliated third party except:

- When required to maintain or service a client account;
- To resolve client disputes or inquiries;
- With persons acting in a fiduciary or representative capacity on behalf of the client;
- With rating agencies, persons assessing compliance with industry standards, or to the attorneys, accountants and auditors of the firm;
- In connection with a sale or merger of flexPATH Strategies' business;
- To protect against or prevent actual or potential fraud, identity theft, unauthorized transactions, claims or other liability;
- To comply with federal, state or local laws, rules and other applicable legal requirements;
- In connection with a written agreement to provide Advisory services when the information is released for the sole purpose of providing the products or services covered by the agreement;
- In any circumstances with the client's instruction or consent; or
- Pursuant to any other exceptions enumerated in the California Information Privacy Act.

Opt-Out Provisions

It is not a policy of flexPATH Strategies to share nonpublic personal and financial information with affiliated or unaffiliated third parties except under the circumstances noted above. Since sharing under the circumstances noted above is necessary to service client accounts or is mandated by law, there are no allowances made for clients to opt out.

Business Continuity Plan

flexPATH Strategies has developed a Business Continuity Plan on how we will respond to events that significantly disrupt our business. Since the timing and impact of disasters and disruptions is unpredictable, we will have to be flexible in responding to actual events as they occur. With that in mind, we are providing you with this information on our business continuity plan.

Contacting Us

If after a significant business disruption the client cannot contact us as the client usually does the client should call the Adviser's alternative number 949.418.6030 or access the Adviser web address <https://www.flexpathstrategies.com/>

Our Business Continuity Plan

We plan to quickly recover and resume business operations after a significant business disruption and respond by safeguarding our employees and property, making a financial and operational assessment, protecting the firm's books and records, and allowing our customers to transact business. In short, our business continuity plan is designed to permit our firm to resume operations as quickly as possible, given the scope and severity of the significant business disruption.

Our business continuity plan addresses: data back-up and recovery, all mission critical systems, financial and operational assessments, alternative communications with customers, employees, and regulators, alternate physical location of employees, critical supplier, contractor, bank and counter-party impact; regulatory reporting; and assuring our customers prompt access to their funds and securities if we are unable to continue our business.

Varying Disruptions

Significant business disruptions can vary in their scope, such as only our firm, a single building housing our firm, the business district where our firm is located, the city where we are located, or the whole region. Within each of these areas, the severity of the disruption can also vary from minimal to severe. In a disruption to only our firm or a building housing our firm, we will transfer our operations to a local site when needed and expect to recover within 24 hrs. In a disruption affecting our business district, city, or region, we will transfer our operations to a site outside of the affected area and recover and resume businesses in a timely fashion with emphasis on recovery of critical functions according to their time criticality. In either situation, we plan to continue in business and notify you through our web site or direct email regarding how you may contact us. If the significant business disruption is so severe that it prevents us from remaining in business, we will ensure our customers' prompt access to their funds and securities.

For More Information

If you have questions about our business continuity planning, you can contact us at 949-418-6030.

FORM ADV BROCHURE - PART 2B

Last updated: August 13, 2024

This brochure provides information about principals and adviser representatives of flexPATH Strategies, LLC and this brochure supplements the flexPATH Strategies, LLC brochure. The client should have received a copy of that brochure. Please contact Monique Schulman at 603-216-8894 or by email monique.schulman@acaglobal.com if the client did not receive the flexPATH brochure or if the client has any questions about the contents of this supplement. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission, or by any state securities authority.

Additional information about the Advisor and its investment advisory representatives is available on the SEC's website at www.adviserinfo.sec.gov.

Jeffrey Elvander, Chief Investment Officer

Year of Birth: 1969

Education: MBA, Pepperdine University, 2001
B.A. Business Economics, UCSB, 1993

Professional Designation(s):

The Chartered Financial Analyst (CFA®) and Certification Mark (collectively, the "CFA marks") are professional certification marks granted in the United States and internationally by the CFA Institute.

The Chartered Financial Analyst® (CFA®) charter is a globally respected, graduate-level investment credential established in 1962 and awarded by CFA Institute — the largest global association of investment professionals.

There are currently more than 150,000 CFA charterholders working in more than 140 countries. To earn the CFA charter, candidates must: 1) pass three sequential, six-hour examinations; 2) have at least four years of qualified professional investment experience; 3) join CFA Institute as members; and 4) commit to abide by, and annually reaffirm, their adherence to the CFA Institute Code of Ethics and Standards of Professional Conduct.

High Ethical Standards

The CFA Institute Code of Ethics and Standards of Professional Conduct, enforced through an active professional conduct program, require CFA charterholders to:

- Place their clients' interests ahead of their own;
- Maintain independence and objectivity;
- Act with integrity;
- Maintain and improve their professional competence; and
- Disclose conflicts of interest and legal matters.

Global Recognition

Passing the three CFA exams is a difficult feat that requires extensive study (successful candidates report spending an average of 300 hours of study per level). Earning the CFA charter demonstrates mastery of many of the advanced skills needed for investment analysis and decision making in today's quickly evolving global financial industry. As a result, employers and clients are increasingly seeking CFA charterholders—often making the charter a prerequisite for employment. Additionally, regulatory bodies in over 30 countries and territories recognize the CFA charter as a proxy for meeting certain licensing requirements, and more than 125 colleges and universities around the world have incorporated a majority of the CFA Program curriculum into their own finance courses.

Comprehensive and Current Knowledge

The CFA Program curriculum provides a comprehensive framework of knowledge for investment decision making and is firmly grounded in the knowledge and skills used every day in the investment profession. The three levels of the CFA Program test a proficiency with a wide range of fundamental and advanced investment topics, including ethical and professional standards, fixed-income and equity analysis, alternative and derivative investments, economics, financial reporting standards, portfolio management, and wealth planning.

The CFA Program curriculum is updated every year by experts from around the world to ensure that candidates learn the most relevant and practical new tools, ideas, and investment and wealth management skills to reflect the dynamic and complex nature of the profession. To learn more about the CFA charter, visit www.cfainstitute.org.
